

Nourish

Innovation

AND WIN \$25,000

Ideas we nourish today can feed the world tomorrow. That's why Wilbur-Ellis is sponsoring the Wilbur-Ellis Innovation Award, which invites student teams from U.S. colleges and universities to propose innovative approaches to providing food for a growing world population. The team that submits the best proposal will win a \$25,000 top prize, and \$5,000 honorable mentions may also be awarded.
